

HARSHVARDHAN NALLA

Hyderabad, India • +91 7499878080 • harshugoud01@gmail.com
• LinkedIn: [Harshvardhan Goud](#) • GitHub: [HarshaGoud01](#)

PROFILE SUMMARY

Detail-oriented graduate with a strong foundation in software development and database management. Proficient in Python and SQL, with hands-on experience in developing projects using structured logic, database integration, and efficient data handling techniques. Good understanding of data structures, OOP concepts, and problem-solving. Eager to start a career in software development, contributing to innovative projects while enhancing technical and professional skills.

EDUCATION

B.Tech in Information Technology

Teegala Krishna Reddy College of Engineering and Technology • Telangana • CGPA: 6.83 • Nov 2021 - May 2025

Higher Secondary Certificate (HSC – Science PCM)

Dnyanopasak Shikshan Mandal • Maharashtra • Percentage: 87.60% • Jun 2019 - Aug 2021

Secondary School Certificate (SSC)

Aurobindo Akshariyoti English School • Maharashtra • Percentage: 79% • Jun 2018 - Jun 2019

SKILLS

- **Programming:** Python, SQL.
- **Database:** MySQL
- **Tools:** Git/ GitHub, VS Code, Snowflake.
- **Concepts:** Object-Oriented Programming (OOP), DBMS.
- **Other Skills:** Communication & Team Collaboration, Problem Solving & Logical Thinking, Adaptability, Time Management.

PROJECTS

METRO TICKET BOOKING SYSTEM

Technologies: Python, MySQL

- Designed and developed a console-based ticket booking application with MySQL database integration.
- Designed user authentication system with email validation and secure password rules.
- Implemented fare calculation logic using station indexing.
- Created admin module to track bookings and generate revenue reports using SQL aggregation queries.
- Used CRUD operations to manage users, bookings, and stations.

INSTITUTE MANAGEMENT SYSTEM

Technologies: Python, Django, MySQL

- Developed a web-based application to manage institute operations with Admin, Staff, and Student modules.
- Implemented role-based access control for secure and efficient management.
- Performed CRUD operations to add, update, and delete student and staff records.
- Used Django ORM for database interactions with MySQL backend.
- Followed MVT architecture to maintain clean and scalable code structure.

CERTIFICATIONS

Python Developer Certification – VCUBE Software Solutions

Focused on Python programming, problem-solving, and application development.

SnowPro Core Certification – Snowflake | Issued: May 2026 | Valid Until: May 2028

Demonstrated proficiency in Snowflake Data Cloud concepts, data loading, data transformation, SQL operations, performance optimization, secure data sharing, Time Travel, Fail-safe, and virtual warehouse management.

INTERNSHIP EXPERIENCE

Data Engineering Internship | Boolean Data Systems | March 2026- June 2026

Developed practical knowledge of Snowflake by learning key concepts and applying them through hands on work on default and test databases.

ACHIEVEMENTS

Won inter-school cricket championship trophies at school and college levels.
